ABHISHEK Rajput

Application Engineer

+91-7999755325 Rupesh.ar33@gmail.com Abhishek-rajput-1b999a18

Profile Summary

- **Dynamic and results-oriented Java Developer** with **3+** years of hands-on experience in the software development industry. Proficient in developing robust and scalable **Java applications** using **Spring Boot**, **Hibernate JPA**, and **RESTful APIs**. Adept at collaborating with cross-functional teams to understand business requirements and translate them into technical solutions.

Experience

Energasia Smart Poles Pvt ltd. **Jan 2026–Present**

Application Engineer *New Delhi,India*

- Designed and developed backend microservices using Java 8 and Spring Boot for an integrated Public Address (PA) Audio System, enabling real-time audio broadcasting and scheduling.
- Configured Arduino Uno and deployed edge-level code via Arduino IDE to interface smart hardware sensors with cloud infrastructure.Developed a highly secure Jail Monitoring System leveraging MongoDB and MySQL for robust real-time logs, CCTV feed tracking, and data isolation.
- Built the enterprise Energasia Portal from scratch, integrating AWS S3 for secure file storage and optimizing database interactions via Hibernate JPA.
- Integrated continuous security scanning using Snyk and Black Duck to eliminate open-source vulnerabilities in code dependencies.

Work Experience

❖ **UST Global** **(MAR 2025 - JUL 2025)**

- Maintain patient profiles, including personal details, medical history, and treatment records. Allow patients to book, reschedule, or cancel appointments with doctors. Implement time-slot management for appointments.
- Manage doctor schedules, specialties, and availability. Store and manage staff details, including nurses and administrative personnel. Generate bills for treatments, lab tests, and medications.
- Integrate payment gateways for online transactions. Track and manage the stock of medicines and hospital supplies.

❖ **7Edge Pvt Ltd.** **(SEP 2023 – FEB 2025)**

- Analyzed project requirements and ER diagrams and developed RESTful web services using Java 8 and Spring Boot.Developed Sign-Up and Sign-In modules with Email OTP verification and authentication.
- Developed Hotel, Search, User, Review, and Booking modules with CRUD operations and JPQL queries using Hibernate/JPA.
- Implemented booking functionality with PDF ticket generation using iTextPDF and integrated payment gateway services.

❖ **Nobroker Technology -INTERNSHIP** **(FEB 2023 – AUG 2023)**

- Property: Contains details like title, location, price, description, etc. User: Includes roles such as buyer, seller, and admin.
- Transaction: Tracks payments, bookings, or inquiries. Use Spring Data JPA with Hibernate for ORM.
- Implement role-based access control to restrict access to APIs. Develop dynamic queries for filtering properties based on criteria such as location, price range, property type, and amenities.

Technical Skills

Languages and Skills: Core Java, Java 8 and 17, HTML, AWS-S3,Agile Methodology
Developer Tools/ Testing Tools: Git, VS Code, Eclipse, STS-4, Jira, IntelliJ IDEA, Postman, Swagger, Gitlab, Snyk, Black Duck
Technologies/Frameworks: Spring Boot, Spring MVC, Hibernate JPA, GitHub, RESTful API/WebServices, Microservices, Maven, Gradle
Database Technology: MySQL, MongoDB
Embedded / IoT Systems: Arduino UNO, Arduino IDE

EDUCATION

Master Of Computer Application **(2020 - 2022)**
Bachelor of computer applications **(2017 - 2020)**
